Sarabande

The Brilliant Beauty Below

★**SARABANDE.** Floribunda. (Meilland.) Plant Pat. 1761. Already the winner of many awards and honors in Europe, and now of the most wanted of them all—the All-America Award—this brilliant new beauty is ready and waiting to perform for you. We offer it for the first time in this catalog. Sarabande is one of the finest Floribundas of all time! Its wonderful, iridescent orient-red is even and clear all through, and like a lighthouse beacon, it catches and holds the eye irresistibly. The bright yellow stamens add to its attraction power, making the most striking and beautiful color contrast with the lively orange-red. Sarabande's flowers are semi-double and rather large for a Floribunda. There are from 12 to 15 petals to the flower, and many, many flowers to the bush. They come in clusters, blooming early and lasting long. The nice bush grows low, compactly, vigorously, and its foliage is very dense. Makes a dandy hedge. **$2.50 ea.; 3 or more, $2.20 ea.; 25 or more, $2 ea.**

Fire King

The Bright Beauty on the Cover

★**FIRE KING.** Floribunda. (Meilland.) Plant Pat. 1758. Our second winner for 1960, the fiery vermilion beauty, Fire King, is a tall rose which is literally covered with very double, well-shaped blooms, each a neat and lively circle of bright, bright color. There are 45 to 50 petals making up the 3-inch flower. The bush is loaded with clusters of these wonderful blooms, and occasionally there are one or two to a stem, making fine cutting for bouquets. Fire King's blooms last long in vase or garden. Growing upright in fine, lusty style and with deep rich green foliage, the plant is immensely attractive—excellent as a specimen plant or for medium high hedges. A knockout in anybody's garden. **$2.50 ea.; 3 or more, $2.20 ea.; 25 or more, $2 ea.**

FINEST YELLOW GRANDIFLORA ROSE YET DEVELOPED!

. . . the Magnificent NEW Golden Girl

★GOLDEN GIRL

★GOLDEN GIRL. Grandiflora. (Meilland.) Plant Pat. App. For. Have you ever seen a yellow rose with such color and form? We believe this is the very best yellow Grandiflora Rose ever produced for America's gardens. The color is solid and clear—the flowers are big, 45-petaled, 4½-inch beauties—the plant blooms and blooms and blooms. You can imagine what the big, husky bush looks like loaded with fine cutting flowers like these. With its great freedom of bloom and of growth, its fine substance and color, its nice touch of perfume, Golden Girl answers the need of millions who have been hoping for an outstanding new yellow rose. The plant is notable in itself—bushy, upright, well-branched and vigorous. Rather special from the ground up to the highest-held, shapely, pointed bud. The marvelous free-blooming style of the Grandiflora is exhibited to the fullest in this golden newcomer; and we venture to say that its popularity will be both instantaneous and long-lived. It has so many virtues, so many good points, so many outstanding qualities, that its position at the top is assured. This is an actual-size picture of Golden Girl; but, of course, no picture can equal the real life beauty of the rose itself. It must be seen in the garden to be most appreciated. **$3 ea.; 3 or more, $2.65 ea.**

Garden Party – NEW!

All-America Winner for 1960

★**GARDEN PARTY.** H.T. (Swim.) Plant Pat. 1814. Here is the only Hybrid Tea Rose to win an All-America Award for 1960. For this honor, credit must go to its illustrious parents, both of whom must be listed in any line-up of former All-America greats . . . Peace and Charlotte Armstrong. Garden Party inherits many of the great qualities of these two, and adds characteristics of its own to make it one of the finest All-Americas in years. In color, Garden Party's blooms are a combination of soft pastels . . . rich ivory at the flower's heart giving way to creamy tones and finally to a pronounced flush of apple-blossom-pink at the outer edge of the petals. Beauty it has in large measure. And speaking of size, this rose is BIG in every way. The blossoms have 25 to 30 enormous, flaring petals. The plant is tall, strong and vigorous. The foliage is large and handsome, its olive-green color attractive. The opening flower is marvelously formed, and the long, lovely bud is reminiscent of Charlotte Armstrong's in shape. When fully open, Garden Party is rose loveliness at its glorious best. You'll get a long succession of these magnificent blooms during the season, and how you'll love them! **$3.50 ea.; 3 or more, $3.10 ea.**

Royal Velvet Huge New Deep Red Rose

NEW!

★**ROYAL VELVET.** H.T. (Meilland.) Plant Pat. App. For. Here's a new red rose with brilliant ruby beauty that's bound to make eyes pop with amazement! It's a find! It's a dream shimmering with the excitement of the most dramatic color of all—rich, eye-filling red! The enormous blooms are magnificently formed, each of the 55 to 65 heavy, velvet petals contributing to a massive plumpness which spells RICHNESS. Royal Velvet's color does not fade out or "blue" as so many red roses do. If anything, it becomes darker as the season progresses. The bush is tall and has strong canes and very fine foliage. It grows vigorously and bears the splendid blooms freely. Sometimes they are so heavy that they bend forward a little so that they appear to be fire-engine headlights from a distance. You'll find these great blooms truly magnificent. **$2.50 ea.; 3 or more, $2.20 ea.**

The Most Famous Rose in the World - PEACE

★**PEACE.** H.T. (Meilland.) Plant Pat. 591. Of all the roses the world has known, none has come near to equaling the fame of Peace. It has won more prizes, honors and awards than any other. In the judgment of rose fanciers and experts, no rose rates higher than Peace. And where the general gardening public is concerned, Peace takes the cake as well, for it is the most popular of all. A close look at this paragon of a rose shows the reason for all the praise. The rare beauty of the Peace bloom is thrilling. The delightful yellow petals with their pink-tinged edges—the fine form of both bud and bloom—the enormous size of the flower—all combine to present a vision of loveliness. The plant is superbly strong and vigorous, sending out thick, fast-growing canes and clothing them in the most lustrous and substantial green leaves. Taken together, these qualities make up a rose whose beauty is breathtaking. That is why wherever roses are grown around the world, Peace is placed highest on the pedestal. It is why you should not overlook having this world-famous rose in your own garden. If you have another square foot or so of ground to spare, let Peace stand there. It will reward you for years to come. **$2.50 ea.; 3 or more, $2.20 ea.**

White Knight—most perfect pure white rose

★**WHITE KNIGHT** (Message). H.T. (Meilland.) Plant Pat. 1359. The All-America Winner for 1958, the only white Hybrid Tea ever to win the honor, White Knight is without question the finest of its kind! Big, beautifully formed in both bud and blossom, non-fading, pure color, satiny texture, free-blooming, long-lasting—its qualities are numerous. The 5-inch flower is exquisitely made. It opens from long buds, its large petals curling gracefully outward. The plant bears these wonderful blooms continuously and in quantity, so that you have the choicest white roses all season long. They come on long, strong stems and, naturally, are ideal for cutting and taking into the house where they will last long in the vase. In fact, White Knight flowers last exceptionally long both in and out of doors. The bush grows with fine vigor to 3 feet. It is bushy, has fine green foliage and is hardy and disease-resistant. It's a champion all the way and a perfect companion for all other roses. **$3 ea.; 3 or more, $2.65 ea.**

Torch Song—flaming new color

★**TORCH SONG.** H.T. (Meilland.) Plant Pat. 1760. Introduced last fall, Torch Song in a single year has won many devotees who are constantly amazed by its red-hot-poker vitality and smoky flame coloring. And no wonder, for this color is new in a Hybrid Tea. The rich vermilion bud opens to a flower of gorgeous blood-orange-red. The 35 to 45 petals curl loosely outward in the most debonair manner, exhibiting the fine color to best advantage. The well-branched bush grows vigorously to medium height. Many flowers held singly on long stems. **$2.50 ea.; 3 or more, $2.20 ea.**

In making up these offers or special collections for you to choose from, we take into consideration both color harmonies and contrasts so that when placed in your garden the roses will go well together. The one on page 7 is, we think, one of the nicest; but since everyone has his own likes and dislikes where color is concerned, the choice has to be what pleases you. We hope you find one or more to your liking.

DERFUL STAR ROSE COLLECTION!

PERFECTA

Vision of loveliness

★PERFECTA. H.T. (Kordes.) Plant Pat. 1604. Cream overlaid with rose-red is a fetching bit of beauty as seen in this delectable new rose. The blooms are big; the fat, full flower is high-centered; the long, strong stems are right for cutting. The plant is superbly vigorous and has rich, heavy foliage. Growing to middle height, Perfecta is solidly substantial—a different kind of rose with great character and charm. Topping off all these good points is a delicate and pleasing fragrance. With so much to offer, it is not difficult to understand why Perfecta has caused so much favorable comment both here and abroad. When you see the blooms in your garden, you will be glad you decided to have this rose. **$3.50 ea.; 3 or more, $3.10 ea.**

CONFIDENCE

★**CONFIDENCE.** H.T. (Meilland.) Plant Pat. 1192. Here is, perhaps, the most wanted pastel-toned rose in the world . . . a rose with so much to recommend it that it is hard to know where to begin describing it. Its lovely blending of peach and pink is breathtaking. Its huge petals—28 to 38 of them—form a big, high-centered flower that's truly magnificent. Note the wonderfully graceful form of the curling petals and the solid substance of the bloom. Add fragrance to this—a delicate and delightful scent that you will love—and you have the kind of special enchantment that is Confidence. To add icing to the cake, Confidence gives you other qualities, too . . . a tall, stately plant that's broad, well-proportioned and upright-growing. It is a fine rose for cutting, and a great winner of honors at Rose Shows, which speaks highly of the splendor of the bloom. This is a great rose that deserves a place in your garden. **$2.50 ea.; 3 or more, $2.20 ea.**

Tapestry

★**TAPESTRY.** H.T. (Gladys Fisher.) Plant Pat. 1812. Of all the newer roses, this is one of the gayest. It has the personality of a "crazy quilt"—its flame, yellow and copper tones mingling and mixing with each other without rhyme or reason. What a beauty it is! And how changeable! No two blooms are alike, but every one is as colorful as an artist's palette! The 35 to 40 petals form large flowers and the vigorous, low-growing bush is loaded with them. Pointed buds open to exhibit the full flush of Tapestry's beauty. It is then that you're glad you have a sense of smell as well as eyes to see with, for Tapestry's spicy perfume is rewarding, too. **$3 ea.; 3 or more, $2.65 ea.**

The Alamo

★**THE ALAMO.** H.T. (Meilland.) Plant Pat. 1689. Very remarkable new rose—an extremely double, big, deep red with far more than 100 petals which form a very solid blossom. The Alamo flower is exceptionally long-lasting, seeming almost to be artificial! The intense cardinal-red is a lively color and very attractive. Flowers come freely on a compact, vigorous, bushy plant which has fine, abundant foliage, too. This is a rose whose amazing qualities must be seen for fullest appreciation. It is, in fact, a rarity among modern roses. **$3.50 ea.; 3 or more, $3.10 ea.**

SUNLIGHT

★**SUNLIGHT.** H.T. (Meilland.) Plant Pat. 1576. Beautifully formed buds open brightly into wonderful golden blooms like this one. The large, 43 to 48-petaled flower is all gold and comes on the plant in free-blooming style, with from one to three to the stem. The tall, vigorous plant has healthy foliage and is well-balanced and good-looking. Sunlight's fragrance is noteworthy and makes this fine golden rose exceptionally desirable. We've long needed a good, new yellow rose. And here it is! **$2.50 ea.; 3 or more, $2.20 ea.**

★SUNLIGHT

Every Star Rose is Everblooming

★LOVE SONG. H.T. (Gladys Fisher.) Plant Pat. 1360. What bi-color is finer than Love Song? None! This gorgeous watermelon-pink with the shining yellow reverse is in a class by itself. Love Song's fascinating color, its great size (as many as 100 petals have been counted), its excellent form are hard-to-beat qualities. And there is even more to recommend it. The flowers are fragrant and they come plentifully on the vigorous, sturdy bush. Decorative, waxy leaves round out the picture of this unusually beautiful rose. If you've not yet seen Love Song "in the flesh," by all means make it a point to see it at your earliest opportunity. You'll agree that we do not exaggerate. **$2.50 ea.; 3 or more, $2.20 ea.**

—Try Them!

We make every effort in producing these catalogs for your consideration to give you true-color illustrations. It is not easy to reproduce Nature's glorious colors as they appear in roses, and many times it is necessary to correct the engravings and the printing inks again and again before we are satisfied that we have done our best to be accurate. This extra care is, however, well worth the effort; because then we know that you will be seeing our roses as we want you to see them . . . as true to life as the arts of printer and engraver can make them.

★LADY ELGIN. H.T. (Meilland.) Plant Pat. 1469. The brilliance of this apricot and orange combination—a kind of red or jeweler's gold—is admired by everyone who has ever seen it. It is amazingly beautiful rich and exciting. This color remains throughout the life of the flower. Huge and handsome blooms come on long stems, which means good cutting for the house. The petals, 35 to 48 in number, are large and form substantial blossoms; and the bud, like the bloom, has excellent form. Lady Elgin's plant is sturdy, tall-growing, upright and vigorous. The foliage is a lustrous green. This fabulous rose, introduced only two years ago, also possesses a delightful fragrance. **$2.50 ea.; 3 or more, $2.20 ea.**

★LADY ELGIN

★CHRYSLER IMPERIAL

★CHRYSLER IMPERIAL. H.T. (Lammerts.) Plant Pat. 1167. A great All-America Winner, this gorgeous red rose remains popular year after year, and with plenty of good reason. The color, for instance, is remarkably rich and eye-appealing. Then, there is the wonderful form of both bud and bloom, and the truly magnificent size of both. There are from 40 to 50 large petals making up the excellently proportioned bloom. Such blooms, coming one to the stem, fill one with a sense of awe as they stand proud and beautiful in the summer garden. Chrysler's flowers are long-lasting and have a marvelously rich and enticing fragrance. The plant is vigorous, sturdy and reaches middle height. Its foliage complements the picture of rose beauty. **$2.50 ea.; 3 or more, $2.20 ea.**

None Finer than STAR ROSES Anywhere!

★MOJAVE

★DR. DEBAT

★MOJAVE. H.T. (Swim.) Plant Pat. 1176. An All-America Winner that's made a great name for itself in the past few years. Its flaming coppery red beauty is irresistible. And its form is just about perfect. Note in the picture how lovely the high-centered flower is, and how delightful the long, pointed bud. Buds and flowers like this come freely on the plant, and each has charming fragrance. Mojave's plant lives up to its high rating, too; it is vigorous and grows tall, its rich, substantial foliage giving an appearance of solidity as well as great beauty. You will enjoy having Mojave in your own garden, just as millions have since this outstanding rose came along. **$2.75 ea.; 3 or more, $2.40 ea.**

★DR. DEBAT. H.T. (Mcilland.) Plant Pat. 961. Here is a fine, clear pink rose which has established a fine reputation for itself. Its deep, rich pink has a delectable quality about it, and since the rose is an exhibition type with big, 5 to 6-inch flowers, you can imagine how gorgeous a sight it makes! Each bloom has 30 huge petals, and there are many flowers on the plant. Dr. Debat grows tall and vigorously, its strong canes holding the fine flowers easily and proudly. Its color, size and excellent form are a combination of qualities hard to equal. Dr. Debat is reliable and will give you outstanding performance for many years. **$2.25 ea.; 3 or more, $2 ea.**

★GRAND'MERE JENNY. H.T. (Meilland.) Plant Pat. 1143. There is an exquisite blending of pink, peach and yellow in this graceful seedling of the great Peace rose. Note the bud at the left for an idea of Grand'mere Jenny's brand of beauty. Isn't it something? The full open blossom has a good 4½-inch spread and is composed of 25 to 30 outcurling petals. If you like the soft pastel shades of coloring in roses, you will find in this one great satisfaction. There is harmony as well as delicacy. The plant grows upright to medium height and provides fine blooms for cutting. Flowers come plentifully. In both France and England, Grand'mere Jenny won Gold Medals shortly after it was introduced, an achievement which speaks for the good impressions it made upon the judges in those countries. Perhaps you will want to pin a medal on it, too! **$2 ea.; 3 or more, $1.75 ea.**

★PRESIDENT EISENHOWER. H.T. (Hill.) Plant Pat. 1217. The 35 to 40 red velvet petals of this fine rose form a blossom so attractive and with so much personality that the title of "New American Beauty" has been conferred upon it by those who know it. It's one of the best of the newer reds, and has big, richly attractive blooms which come on sturdy, upright canes. There is a nice fragrance. Since the plant is relatively low-growing, it makes an ideal rose for the front row or for borders. Dark foliage makes the red of the flower seem ever brighter. All-in-all, President Eisenhower is very worthwhile, bringing to your garden the excitement which only a good red rose can supply. There is distinction about it which you will appreciate more when once you see it at first hand. **$2.25 ea.; 3 or more, $2 ea.**

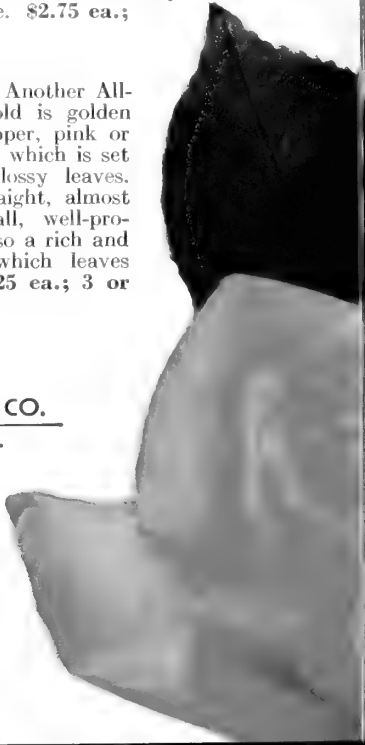
★TIFFANY



★NEW YORKER. H.T. Plant Pat. 823. There is a brightness about New Yorker which makes this fine red rose very much a standout. Add to this the quality of reliability, and the fact that it will do well even in semi-shade, and you have a quite remarkable rose personality. The blooms are often enormous and always big and bouncy. They're wonderfully fragrant, have long stems and come in plenty. A vigorous, bushy grower. **$2.50 ea.; 3 or more, $2.20 ea.**

★SUZON LOTTHE. H.T. (Meilland.) Plant Pat. 934. Large and well-formed, this pearl-pink paragon of 55 to 90 petals is a distinctively different kind of rose—unusual in its beauty. The plant is heavy-caned, vigorous and disease-resistant. Its leaves are large and the stems are strong. Blooms are excellent for cutting. The fragrance is simply wonderful! Why not try this charmer and see for yourself? **$2 ea.; 3 or more, $1.75 ea.**

★TIFFANY. H.T. (Lindquist.) Plant Pat. 1304. Clear pink blended with pure gold and shaped like a dream—that's Tiffany. Combining rare beauty of flower with vigor of plant, it gives you in free-blooming profusion a wealth of fine flowers. 30 to 40 petals. Plants grows 3 to 4 feet tall. All-America Winner all the way. Tiffany should be part of your rose gardening experience. **$2.75 ea.; 3 or more, $2.40 ea.**

★SUTTER'S GOLD. H.T. (Swim.) Plant Pat. 885. Another All-America Award Winner, the famous Sutter's Gold is golden touched with flushes of copper, pink or vermilion—a rich, rich color which is set off by the fine, bright, glossy leaves. Blooms come freely on straight, almost thornless stems. Good, tall, well-proportioned bush. There is also a rich and intense fragrance—all of which leaves nothing to be desired. **$2.25 ea.; 3 or more, $2 ea.**

True color illustrations and accurate descriptions help you choose.

★EDEN ROSE. H.T. (Meilland.) Plant Pat. 1149. In England and on the Continent, this impressive pink rose is a great winner of medals and honors. Here, it is becoming a favorite, too. It's very large, showy and extraordinarily fragrant. The 3-foot plant is husky and in keeping with the tremendous flowers. The color is clear, vivid pink, a most attractive shade. Apart from its strong fragrance and fine coloring, the one word, perhaps, which best describes Eden Rose is massive. You can't miss it in any garden because it stands up boldly and proudly for all to see. **$2 ea.; 3 or more, $1.75 ea.**

★SHOW GIRL. H.T. Plant Pat. 646. One of the older rose beauties which never seems to wear out its popularity, Show Girl today is just as appealing as the day it first took the stage. The well-known bright, luminous, deep pink color—the wonderful, long, shapely bud—the exhibition-type quality of the full open bloom—all these keep Show Girl front and center through the years. The flowers make excellent cutting, for they have long, straight stems. The plant, too, is very good and does well anywhere. **$2.25 ea.; 3 or more, $2 ea.**

★CHARLES MALLERIN. H.T. (Meilland.) Plant Pat. 933. If you can imagine a big, deep red rose that's so superbly formed that it's usually an easy prize-winner at rose shows, then you have a fair idea of Charles Mallerin's rare beauty. It's famous everywhere for this kind of perfection. The 30 to 40 large, substantial petals make up a flower that's a wonder in black-red . . . huge, shapely, magnificent. Its fragrance is something special, too; and the plant is tall and vigorous. So much that is ideal in a rose deserves to have at least one drawback. That is, you won't have dozens of blooms, even though you will have perfect ones. **$2.50 ea.; 3 or more, $2.20 ea.**

★MIRANDY. H.T. (Lammerts.) Plant Pat. 632. The crimson to deep wine beauty below is famous for a number of things, among them its huge size, its strong, delightful fragrance, its exceptionally fine form—and far from least, its gorgeous and exciting color. 50 great petals make up the flower, and the bush delivers them all the time. The plant is strong and vigorous. Naturally, Mirandy is an All-America Winner—one of the finest and earliest, but still one of the most popular. **$2.25 ea.; 3 or more, $2 ea.**

★PENNSYLVANIAN

★**NOCTURNE.** H.T. (Swim.) Plant Pat. 713. The long, pointed buds of this deep red rose open to huge, well-formed flowers that are richly fragrant. Tall plant grows well anywhere. Blooms don't fade in summer heat. An All-America Winner—very good. **$2.25 ea.; 3 or more, $2 ea.**

★**GRANDE DUCHESSE CHARLOTTE.** H.T. Plant Pat. 774. Nicely shaped blooms of copper-touched red open from burnt-carmine buds. Tall, graceful plant bears them plentifully—one to a stem. Good foliage and well-formed bush. A very fine rose with a great reputation. You'll enjoy this All-America Winner. **$2 ea.; 3 or more, $1.75 ea.**

★**PENNSYLVANIAN.** H.T. (Ohlhus.) Plant Pat. 936. An apricot-orange tinted beauty with big blossoms and long, pointed buds—a real knockout! Fine fragrance. The upright plant is a vigorous grower which produces an abundance of flowers. Pennsylvanian is at its superb best in spring and fall. Must be seen to be fully appreciated. You'll like its lovely taffy tones. **$2 ea.; 3 or more, $1.75 ea.**

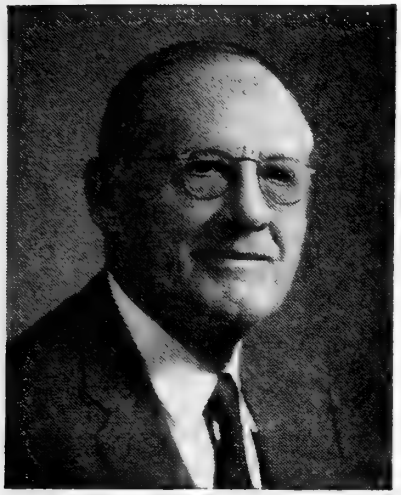
Something Different

THE ROSE THAT'S ALMOST BROWN!

★**FANTAN.** H.T. (Meilland.) Plant Pat. App. For. This is a wonderful novelty rose for the gardener who likes to have something different—something unusual—in his garden to spark conversation with his friends and neighbors. Fantan is almost brown—the first of its color. It has most interesting color tones . . . but overall it's a kind of rosy-tan. Some call it "burnt-orange" or "Chinese coral"—but the general impression is that Fantan is a soft but lively tan. It's worth watching. Growing to medium height, the plant bears plenty of good 3½-inch flowers of 40 to 50 petals. The form is cupped. Fragrant. Good, vigorous, shapely bush. **$3 ea.; 3 or more, $2.65 ea.**

"The Man Who Stood Stock Still . . . "



WEST GROVE, PENNSYLVANIA
Fall, 1959

Dear Friend:

"The Man Who Stood Stock Still," as I like to call this little story, is about (of all things for me to be writing about!) men's fashions! But it does have a point which relates to my favorite subject—Roses; and I think you might enjoy it.

There was a time in the last century when the elegantly dressed man wore what was called in those days a "stock." This was a stiff kind of neckwear which actually served as collar and tie. One such gentleman never quite believed that the stocks in his wardrobe, of which he was so fond, would ever go out of fashion. Unlike his friends, he felt that what was good and appropriate would last forever. Naturally, since Nothing Is Permanent But Change, as philosophers have discovered, it was not too long before our old friend found himself to be unique: the only man in town who looked old-fashioned! All his friends had turned to newer things and newer ways, and had progressed with the times. It had been obvious to them that change was inevitable, and that they must change, too, or find themselves helplessly and hopelessly "old hat."

I think that there are, however, some things which should always remain in style regardless of the passing years, and the outward trends and changes they bring. I refer to the old-fashioned virtues, including old-fashioned courtesy. When extended to the Market Place, these inner qualities result in mutual confidence between buyer and seller—and mutual respect. In the exchange between them, both benefit; for the former receives a quality product honestly produced, honestly represented and sold, and the latter makes an honest profit so that he can continue to serve his customer, as he himself would like to be served by those from whom he buys. There are too many today, it seems, who care little about these—as I call them—old-fashioned virtues.

Giving value in return for your hard-earned dollars is a satisfaction which we are privileged to say lets us sleep nights and lets us look every man in the face during the day. Here at Star Roses, we would not want it otherwise. We believe in the progress which modern methods permit; and in the old-style qualities our business was built on.

With best wishes for your garden pleasure, I am

Sincerely,

Star Roses

Grandiflora Roses bloom with all the gay abandon of the Floribunda, but at the same time have the distinctive form and size of the Hybrid Tea Rose. On these two pages, we present to you what in our opinion are the best on the market today. The newest of them is Golden Girl, which is listed here for the first time. Plant them this Fall, and next spring you'll be in for a real rose treat.

★**GOLDILOCKS.** Plant Pat. 672. Among the better older yellow Floribundas, Goldilocks is best—its fine 3-inch flowers of bright, solid gold enlivening any spot you put it. These come continuously on a bushy, 2½-foot plant . . . all you would ever want. The plant itself looks massive with all those flowers and the good, dense foliage. You can't help liking the cheerful Goldilocks. **$1.75 ea.; 3 or more, $1.55 ea.; 25 or more, $1.40 ea.**

★**VOGUE.** Plant Pat. 926. This is a mighty attractive Floribunda, its soft coral-red color oozing charm all over the garden. Note, too, the completely beautiful form of the buds and blossoms. They're big—as much as 4 inches across when fully open—and they come in masses on the vigorous plant. Vogue is an All-America Winner—naturally. An old-fashioned fragrance is among its virtues. **$2 ea.; 3 or more, $1.75 ea.; 25 or more, $1.60 ea.**

★**FUSILIER.** Plant Pat. 1709. The orange-red of this All-America Winner for 1938 has a luminescent quality and a brilliance which are unusual. Unusual, too, is the frilled edge of each petal. The 3 to 3½-inch flowers come in clusters on a full, bushy plant that reaches middle height. Perhaps you can imagine the effect of this kind of Floribunda beauty in a garden spot where a bit more than just a touch of color is needed. **$2.50 ea.; 3 or more, $2.20 ea.; 25 or more, $2 ea.**

Star Everblooming Floribundas are really amazing plants giving you great quantities of fine flowers, living and producing for many years, decorating your home and grounds with Nature's colors. Floribunda itself means "many flowers" and this is a main difference between this kind of rose and the Hybrid Tea or the Grandiflora. Floribunda flowers are smaller than either of the other two kinds, but they come in much greater numbers on the plant. For this reason, the Floribunda is ideal where you want massed color, as, for instance, in low hedges or borders. Also you can plant them in groups of 3 or more wherever you want a separate center of attraction. Another quality of the Floribunda plant as a whole is fine vigor of growth and hardiness. They last a long time in your garden. Most of the Floribundas bear their flowers in clusters or candelabras, and many of them have stems long enough for good cutting. They are a very worthwhile kind of rose, always giving back far more than their cost.

★CL. PEACE

★**CL. PEACE.** (REPEAT BLOOMING) Plant Pat. 932. This is the famous rose Peace all over again, but as a Climbing rose. It has the same wonderful blooms—same shape—same color—same size. The very large, yellow flowers have lovely pink-tinged petals, and they come on the plant in generous quantity, repeating their bloom. They are produced on a most vigorous plant that has long, fast-growing, pliant canes. The longer Climbing Peace lives, the more it blooms; and here's a Climber that's so rugged that it will last for many, many years. Remarkably sturdy and strong. We know of a Climbing Peace which grows in a tiny yard in the middle of a city. It has 22-foot canes! It's the talk of the neighborhood! You'll be very well satisfied with Climbing Peace. **$2.25 ea.; 3 or more, $2 ea.**

★RED EMPRESS

★**RED EMPRESS.** (EVERBLOOMING) Plant Pat. 1573. When we introduced Red Empress several years ago, it became an immediate sensation and we sold out early in the season. Here are some of the reasons: it has big, Hybrid Tea-like blossoms of a most interesting and striking red. They make a great showing! You get some of these wonderful flowers the very first year—which is very unusual in a Climber. The blooms are strongly fragrant; and the stems are sufficiently long to make good cutting for bouquets to grace the house. Add to all these good points the fact that the plant is very hardy, and a lusty grower with great strength, long canes and good foliage. Quite an array of fine qualities! See the size of the flowers in the picture, their generous number and how well the red goes with the rich green of the foliage. Then, if you'd like to have one or more of Red Empress, place your order early, and be sure. **$2.50 ea.; 3 or more, $2.20 ea.**

with Colorful Star Climbers

Prolific producers of fine blooms, Star Climbing Roses are one of the most rewarding and worthwhile of all plants at the price! During their long life, they'll give you thousands of flowers and they do live long. They are also very versatile. You can use them to hide or screen unsightly places, giving you beauty where there was none before. You can grow them on trellises, on fences or walls, against buildings or porch supports, on driveway lamp posts—in fact, anywhere there's a support for them. You'll get most bloom from them if you remove spent flowers. Never prune away first-year canes because Climbers produce flowers on old wood. Prune only to keep in bounds or to remove dead wood. Have you a spot that needs a fine Star Climber?

★CL. CRIMSON GLORY. (REPEAT BLOOMING) Plant Pat. 736. The flower of this magnificent Climber is exactly like that of the Hybrid Tea of the same name. The rich, fragrant, deep crimson flowers are tremendously appealing. The good form of the bloom, its large size and gorgeous color are outstanding. Good, clean, disease-resistant foliage rounds out the picture of a fine and beautiful Climbing rose which so many people have found to be especially desirable. **$2.50 ea.; 3 or more, $2.20 ea.**

★GOLDEN SHOWERS. (EVERBLOOMING) Plant Pat. 1557. It is not often that a Climbing rose walks away with an All-America Award, but Golden Showers did it in 1957. It has big, 5-inch, daffodil-yellow flowers that load the plant all season long. A unique feature about Golden Showers is that it is so strong that it can stand alone, without support of any kind. This makes it a natural for a spot where you'd like to put a shrub. Its canes shoot up to 8 feet in a hurry, and its large, leathery, glossy leaves provide a fine backdrop for the yellow blooms. Better plant one this fall. **$2.75 ea.; 3 or more, $2.40 ea.**

★GOLDEN SHOWERS
